

## Maskell's Shotgun Academy

---

Are you wanting to become an accomplished shotgun shooter? Are you tired of watching others breaking target after target while you struggle? Why are the same people on top time after time? Shooting a shotgun is the greatest sport in the world. Whether it is sporting clays, skeet, trap, or game birds, the feeling of accomplishment when you hit your target can be overwhelmingly gratifying. It is just good for you to feel good about yourself!

Trying to become an accomplished shooter without instruction can be an overwhelming task. It is a lot more fun breaking targets and shooting games than always wondering what to do. No confidence equals no fun! Gun fit, ammo, stance, mount, swing through, sustained, pull away, all within less than a second. The best shotgun shooters in the world look for help all the time.

But the wrong help can be worse than no help at all!

### ***Do you want to be coached by a champion?***

Michael Maskell hails from Barbados in the Caribbean and has spent most of his life representing that country in the shooting sports. He is a four time Olympian for his country in International Skeet, and has made himself a major player in shooting competitions around the world. Overcoming enormous odds, he has developed a fundamental understanding of what it takes to be successful in shooting. Did he do it all on his own? Of course not. In the past 30 years Michael has competed and trained with the best of the best. Michael has been taken under the wing of some of the greatest shooters of all time and also has spent countless hours coaching others to become champions. Mike is not a one game wonder, he is one of only a few people to be successful competing and coaching at a world level at all the shotgun sports.

***Now Michael is making his knowledge and experience available to you.***
